ITIL v4 OPERATIONS

ITIL & ServiceNow Engine

Incident Triage & Parent-Child Linking

1. The 3 Core Operational Rules

RULE A: Hard Failure -> P1 Major Incident P1 CRITICAL

Trigger:	Process exits non-zero after retries
Target Job:	JOB_03_EOD_SETTLEMENT (Exit 2)
Priority:	P1 - Critical (Impact 1, Urgency 1)
State:	Assigned (Major Incident Bridge)
Group:	Core-Banking-DBA-L3
Primary SME:	Oracle RAC Escalation Desk
Runbook SOP:	KB0041209 (Deadlock Clearing)
Diagnostics:	Captures full stderr stack trace

RULE B: Cascading Block -> Linked Child Ticket P3 CHILD

Trigger:	Downstream job blocked by upstream
Target Job:	JOB_04_REG_REPORT (MAS/Fed Report)
Priority:	P3 - Moderate (Alert Suppressed)
State:	On Hold - Awaiting Upstream
Group:	Regulatory-Reporting-L2
Parent Incident:	INC0010404 (Linked to JOB_03)
Purpose:	Eliminates Command Center alert storms

RULE C: Recovered Job with SLA Breach	P2 WARNING
Trigger:	Job succeeds but exceeds SLA limit
Target Job:	JOB_02_LEDGER_RECON (Balanced $4.28B)
Runtime:	3.20s wall-clock (SLA limit: 1.50s)
Priority:	P2 - High (Non-outage warning)
State:	New
Group:	FinControl-GL-Support-L2
Runbook SOP:	KB0038912 (Lock Contention Tune)
Purpose:	Catches silent pipeline degradation

2. ServiceNow Table API REST Outbox

Saved in data/servicenow_outbox/<incident_number>.json formatted for ServiceNow Table API ingestion (POST /api/now/table/incident):

```
// ServiceNow REST Payload Schema
{
  "number": "INC0010404",
  "caller_id": "batchguard.automation",
  "category": "Database Infrastructure",
  "subcategory": "Deadlock & Lock
Contention",
  "impact": "1", "urgency": "1",
  "priority": "P1 - Critical",
  "state": "Assigned",
  "assignment_group": "Core-Banking-
DBA-L3",
  "assigned_to": "Oracle RAC Escalation
Desk",
  "u_kb_article": "KB0041209",
  "parent_incident": null,
  "short_description": "[P1 INCIDENT] Hard
Failure in...",
  "work_notes": "Diagnostic stderr:
ORA-00060..."
}
```

3. Shift Handover Reports

* **CSV Check-Sheet: Structured tabular export in** reports/Daily_Ops_CheckSheet_*.csv for audit logs.
* **HTML Dashboard: Dark-themed responsive** dashboard in reports/Shift_Handover_Dashboard_*.html with KPI cards, action items, and sign-off blocks.
